Introduction

The Strategy Games disk contains 6 separate games for the HP OmniGo 100.

Included with the games is the OmniGo 100 Installer program. Installer enables you to install as many or as few games as you like. You can also use Installer to uninstall individual games whenever you want.

Installer gives you the option to install to 3 different places:

- To the OmniGo 100 main memory (requires OmniGo 100 Serial Cable).
- To a PCMCIA SRAM card in your OmniGo 100 (requires OmniGo 100 Serial Cable).
- To a PCMCIA SRAM card in the PCMCIA drive on your PC (requires a PC with a built-in PCMCIA card drive and a PCMCIA SRAM card).

For Windows95, minimum recommended configuration is a 486/33 PC with 8 MB RAM.
